Bicycle handlebar end mirror

AVOID SURROUNDING DANGERS

This mini-format mirror (17 cm long) is getting attached to the end of the handlebars of your bike and adjusted to find the ideal angle.
It has a 70mm diameter convex mirror. It is rotatable 360° to adjust the ideal viewing angle.
It is compatible with handlebars with an internal diameter between 18 and 25 mm. Insert the end of the mirror inside the handlebars of your bike, and tighten with the allen key until the inner ring fits against the edges of the handlebars.
So you feel more secure when traveling in an urban environment.
