

## Make your life easier

Incar

- Chargers - Cigare lighter chargers and cables

Put your smartphone on the holder to activate the charging process without any

plugged cable.

This charging holder works with a micro USB cable connected to a cigar-lighter

charger (both cabde and charger are included in the set).

This holder is suitable to any type of vehicle thanks to the windscreen suction mount. You can adjust the holder to your smartphone shape and size with a button at the back (compatible up 6 incles)

The rotative head will allow to use your smartphone on either landscape or portrait

The wireless charging technology is compatible with smartphone fitted with wireless receiver module or any wireless charging case.

## **Characteristics**
