

Cable USB vers Lightning torsad

A TWISTED CABLE TO CHARGE YOUR SMARTPHONE AND TRANSFER YOUR DATA!

The T'nB USB to Lightning cable is your ideal CARPLAY solution! The cable allows you to charge your devices with a Lightning input and transfer your data. The spiral structure of the cable allows it to reach 1m in length in addition to being more resistant than a conventional cable. The advantage of this twisted cable is that it doesn't take up space when you're not using it! It is easy to use in situations where space is limited and where it is necessary to bend or turn the cable. This cable is extremely resistant thanks to its spiral structure and its reinforced connectors.

BOX CONTENTS

Twisted USB to Lightning cable

cable pass

Characteristics

USB

Ref.: CARPLCBL

3 303170 114292

Packing: 6
 Net weight (g): 23
