

MICRO USB CABLE ECO BUILT

BENEFIT AN ECO-DESIGNED AND EFFICIENT CABLE

T'nB has always been able to stay on the cutting edge of technology and offers accessories in line with market innovations, but today a much bigger issue is under way.

The ecological impact of companies like ours must be reduced, T'nB became aware of this several years ago and we decided to intensify these efforts to reduce our production and waste of polluting materials.

T'nB's eco-range is the result of months of research to offer eco-designed technology products that meet our quality criteria.

This cable is made of 45% plant materials which results in a reduction in the use of plastic in its design. The plastic that goes into the composition of this cable is made of TPE, which is the easiest plastic to recycle to date.

Recharge and sync all your devices with a Micro USB port.

This 1.5M USB 2.0 to Micro USB cable connects your Micro USB port device to a device with a standard USB port (USB-A).

Fast charge up to 15W

Let's act together for the planet

MICRO USB CABLE ECO BUILT

Characteristics

Characteristics: 5V / 2,4A
Compatibility: Micro USB
Connectivity: USB-A / Micro USB
Cable function: Charge & synchronization
Length (cm): 150
Max power (A): 2,4
Max power (W): 15
Type of connector: Strong

Box contents

Micro USB cable

Color:
Packing: 6
Guarantee: 2 year(s)
Net weight (g): 28
Weight with packaging (g): 51
