

15W WIRELESS CHARGER

BENEFIT A FAST WIRELESS CHARGING

No need for a cable to have a fast charge on your smartphone.

This 15W Turbo Charge wireless charger is powerful and easy to use. All you have to do is put your smartphone on the charger and it instantly starts charging.

Its ideal shape offers a stand so you can keep an eye on your smartphone and continue using it while it charges.

The LED light on the bottom of the charger allows you to check if your phone is charging or 100% charged.

Wireless charging works with all compatible phones, you can even keep your T'nB protective case. The charger is designed to work with plastic guards less than 3mm.

To benefit from the 15W fast charge, you will need to connect your wireless charger to a wall charger with a power of at least 18W. The wall charger is not included in the pack.

The T'nB CHQC3 wall charger and the CHPD20W2 are compatible with this induction charger.
