

AIR NOISE WIRELESS TWS EARPHONES

ADAPT YOUR LISTENING, WHEREVER YOU ARE!

AIR NOISE earphones are equipped with an advanced system for processing external noise to give you a completely new musical experience.

Excellence noise treatment:

-NOISE CANCELLING 23dB: Thanks to microphones placed on the surface and a real-time treatment of parasitic noise, these earphones can reduce up to 85% the noises that interfere with listening to your music, experience the sound immersion the most total.

- TRANSPARENT MODE: Transparent mode is a novelty in the world of wireless earphones, it allows you to accentuate outside noise so you can enjoy your favorite playlist without cutting yourself off from the world!

Discover fast charging, enabled thanks to the new USB type C technology. Don't lose time charging your earphone anymore!

These high-end earphones equipped with the latest technologies will allow you to enjoy your music in a **Active noise cancelling / Transparent mode**
