

SMARTPHONE LED RING - INFLUENCE

THE PERFECT LIGHT FOR ALL YOUR SELFIES

This light ring is the ideal accessory for all your selfies. It gives you all the light you need for your shootings. Do not fear any longer to lack of clarity during your videos. Small and compact (92 * 13 mm), its 37 LEDs ensure the brightness at every moment. The ring shape allows a uniform light diffusion, avoiding contrast differences and visible shadows. The ring has a rubber reinforcement part inside it, to protect the smartphone screen. Take advantage of the 3 light options to adjust the light intensity as you wish. Compatible with every smartphone, the ring is rechargeable with the supplied micro USB cable.
