Geolocation tag

FIND ALL YOUR OBJECTS THANKS TO OUR LOCATION TAG

The OLTAG1 is a location tag that allows you to easily locate your lost items. If you attach your keys, for example, you can see their location on your iOS Find My app. The OLTAG1 works similarly to Apple's Airtag, but at a more affordable price. When you can't find your OLTAG1, you can play a sound to determine its location. Location information is only sent to Apple when you actively locate the device, mark it as lost, or enable sending last Apple location. Data is encrypted on Apple's servers, and when using the Find Network, everyone's information is confidential, even to Apple. To use the Apple Find My app with OLTAG1, you must have the latest version of iOS, iPadOS or macOS. The Find Items app on Apple Watch requires the latest version of watchOS.

Bluetooth system BLE 5.2 32-bit processor
Works with Apple's Find My Network and MFI certification.
No need to install any apps, just use the iOS Find My app.
Battery type: CR2032 (user replaceable)

BOX CONTENTS

1x OLTAG1

1x Notice

Characteristics

USB-A and micro USB

Ref.: OLTAG1

3 303170 114711

Packing: 6
Net weight (g): 10
Weight with packaging (g): 38
Product size (cm):
Packing size (cm): 6.5x2x13.5
