

VLOGGER PACK STUDIO - INFLUENCE

A FULL PACK TO SETUP ITS OWN STUDIO

Create your own recording studio with this complete pack of vlogger accessories.

This kit gives you all the tools to enhance your videos: tripod, light ring, smartphone / camera support, and green background.

The metal tripod, with a maximum height of 160 cm, is adjustable to place it at the right height and choose the ideal angle. In addition, it has a 90 ° rotating head to direct the light as you see fit.

The light ring, with a diameter of 12", allows uniform light diffusion, which avoids differences in contrast and thus leaves no visible shadows on the plan.

The smartphone holder is flexible and therefore adjustable for optimal placement. In addition, the holder is placed in the center of the ring. Thus, light is emitted evenly all around the lens, resulting in crisp, balanced brightness at all angles.

Finally, thanks to the 150 x 200cm green background, film yourself and replace it with any decor. From your studio, find yourself on a fine sandy beach, at the top of a mountain peak or in the middle of the Amazon forest ...
