

UM-LED PROTECTION HELMET

COMBINE SAFETY, COMFORT AND FASHION

While riding an e-scooter, a bike, an hoverboard, this helmet will protect you from falls and humps. Its polycarbonate outer shell and expanded polystyrene, associated to inmold technology, guarantee an optimal protection and a shock absorption.

The tinted visor protects you from the sun during the day, and slides on the helmet if you don't want to use it.

The LED system at the front and at the back makes you visible from all the users on the road, at night, in urban environment. Take advantage of these 3 different LED options in order to notify you to as many people as possible and prevent the risk of accident.

Moreover, the 8 air vents ensure ventilation for your head and reduce perspiration while providing a timeless style.

The inner padding is absorbant, removable and hand washable.

Finally, its rear ajustement system consisting of a strap and rotary button allows you to adjust it perfectly, for optimal support and maximum protection.

Protection, safety and comfort in a fashion accessory

UM-LED PROTECTION HELMET

Characteristics

Additional accessories: Size setting at the back

Autonomy:

Characteristics: 3 different LED options

Composition: Polycarbonate (PC) outer shell / Expanded Polystyrene inner shell (EPS)

Connectivity: Micro usb

Product dimensions (W x H x D): 27 x 17 x 23

Light intensity: 45 lm

Size (cm): 58-61,5cm

Input current: DC 5V - 1A

Type of battery: Lithium battery 3,7V 200 mAh

Box contents

- 1 x LED helmet
- 1 x micro USB charging cable
- 1 x protective bag

Color: Black

Packing: 1

Guarantee: 2 year(s)

Net weight (g): 442

Weight with packaging (g): 628
